

THE NEW PALIÓ SIENA OVERSIZED SINGLE-JET LIGHTER

June 20, 2021 | Press Release

[Accessories](#) [New Releases](#)

The Palió Siena is the newest addition to the brand's growing portfolio of value-priced torch lighters. The Siena features an oversized single-jet flame that provides plenty of fire power to quickly light larger ring gauge cigars while providing precision lighting for smaller cigars and touch-ups. Its ergonomically contoured body fits perfectly in the hand and is paired with a wide trigger for comfort and control. Ample fuel is stored in an extra-large translucent fuel tank with enough capacity to light up to 100 cigars between fill ups. The large easy-to-use flame adjuster wheel is an additional ergonomic feature allowing the user to effortlessly find the perfect desired flame height. Large air vents help prevent overheating and misfires and enhance performance at high altitude.

The Siena will be available in five colors: clear, smoke, red, blue and amber yellow—and will be merchandised in a 20-count self-shipper POP display with four of each color. The Palió Siena ships in July 2021.

The suggested retail price is **USD 8.99 each**.

Dimensions: 41 x 31 x 82 mm | 1.64 x 1.21 x 3.21 in
